REF: PPR/2026 - 04/01

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE
WEDNESDAY, 1ST APRIL 2026**

The changes in fuel prices in the country for April 2026 have been largely influenced by the ongoing conflict between the United States and Israel against Iran, which began on 28 February 2026.

Attacks on oil fields, storage facilities, and refineries, along with Iran's closure of the Strait of Hormuz which handles approximately 20% of the world's transported oil have affected oil production in the Middle East from which Tanzania sources most of its products. This has equally increased shipping costs due to a shortage of cargo vessels and raised insurance premiums for cargo ships.

The increase in fuel prices is a global crisis, and Tanzania, as part of this, is taking various measures to ensure the security of fuel supply in the country and maintain affordable prices to minimize economic and social impacts. In light of this situation, citizens are advised to use the fuel carefully and efficiently.

The Energy and Water Utilities Regulatory Authority (EWURA) hereby publish Cap Prices for petroleum products, applicable in Tanzania Mainland, effective from **Wednesday, 1st April 2026 at 12:01 am**. In April 2026, the retail and wholesale prices of petroleum products in Dar es Salaam, Tanga, and Mtwara are depicted in **Tables 1 and 2**, respectively.

Table 1: Retail Prices - TZS/Litre

Port	Petrol	Diesel	Kerosene
Dar es Salaam	3,820	3,806	3,684
Tanga	3,881	3,867	3,745
Mtwara	3,912	3,898	3,777

Table 2: Wholesale Prices - TZS/Litre

Port	Petrol	Diesel	Kerosene
Dar es Salaam	3,677.71	3,663.29	3,542.70
Tanga	3,685.00	3,659.28	-
Mtwara	3,669.32	3,669.98	-

Pump prices for petroleum products across various towns, districts, and regions are provided in **Table 3**.

TREND OF FOB PRICES FOR REFINED PETROLEUM PRODUCTS

The FOB reference prices used are those that prevail in the Arab Gulf market. For April 2026 cap prices, FOB prices increased by 69.98% for petrol, 114.46% for diesel, and 120.81% for kerosene.

TREND OF PREMIUMS

In April 2026, the premiums of products received through Dar es Salaam Port increased by an average of 15.3% for petrol, 10.8% for diesel, with no changes for Kerosene. The Premiums for products received through the Tanga port increased by 6.9% for petrol, with no changes for diesel. There are no changes for Premiums for products received through Mtwara Port.

EXCHANGE RATES

The FOB prices and premiums are quoted in major foreign currencies, including the United States Dollar (USD). The applicable exchange rate for April 2026 prices decreased by 0.45%.

Retailers are required to sell petroleum products at prices indicated in **Table 3**, while Wholesalers are required to sell petroleum products at prices indicated in **Table 2**. **Legal action will be taken against any retailer or wholesaler who fails to comply with these instructions.**

Notwithstanding the geopolitical tensions in the Middle East, current petroleum stocks remain sufficient to meet domestic consumption needs. EWURA would like to remind wholesalers, retailers, and the general public to adhere to the following:

- a) Cap prices can be accessed through mobile phones by dialling *152*00# and following the instructions provided. This service is free of charge and is available to all mobile phone service providers in the country.
- b) In line with the prevailing sector legislation (**Petroleum Act, Cap. 392 Section 166**), prices of petroleum products are governed by rules of demand and supply. However, EWURA shall continue to encourage competition in the sector by making petroleum product pricing information available, including cap prices.
- c) Oil Marketing Companies are free to sell their products at a price that gives them a competitive advantage provided that, such **price does not exceed the price cap and is not below the floor price for the relevant product as it is computed according to the EWURA (Petroleum Products Price Setting) Rules that were gazetted through the Government Notices No. 57 published on 28th January 2022 and the EWURA (Petroleum Products Price Setting) (Amendment) Rules that were gazetted through Government Notice No. 761A published on 30th October 2023 and Amended Bulk Procurement Regulations of 2024.**
- d) All petrol stations must publish petroleum product prices on clearly visible boards. The price boards should clearly show prices charged, discounts offered, and any trade incentives or promotions on offer. Consumers are encouraged to purchase from stations that sell products at the most competitive prices and offer better services. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations. Failure to adhere to this directive will attract punitive measures from EWURA.**
- e) Retailers must issue receipts printed from an Electronic Fiscal Pump Printer (EFPP) for all sales that they make. In addition, consumers are required to **demand and keep receipts** that clearly show the name of the petrol station, the date on which such a purchase was made, as well as the type of petroleum product (fuel) and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged if the selling price is above the cap price or in case the products sold do not meet the approved specifications, and provides an assurance that appropriate government taxes on sales of petroleum products are fully accounted for recovery from the Retailers.
